

## Goal

vaccinate at least  
1 million children  
against the flu

Help PTA reach its goal **and** get paid for your success!

Become a part of Flu Busters clinic Field Staff today

Flu Busters, a national preventative healthcare company, is partnered with PTA for the *Let's Fight Flu Together!* program. We are currently hiring "Field Staff" to work with local schools and community organizations to generate awareness for the *Let's Fight Flu Together!* program. The days and hours are flexible with the heaviest workload from April through June and September through December. This position can be part-time. The "Field Staff" should have experience with PTA or have worked in/schools. Applicants with strong connections to their local community are desired. This is a commission based opportunity with residual income with no cap on earnings. For each clinic the "Field Staff" recruits into the *Let's Fight Flu Together!* program, he/she will receive \$50 per clinic, and an additional \$1 for each vaccine administered at that clinic.

### Responsibilities include:

- \* Contact schools and community organizations in your assigned area to inform each about the *Let's Fight Flu Together!* program and work with each of them to sign up to host a flu vaccination clinic to take place this fall
- \* Present the *Let's Fight Flu Together!* program to school and other community leaders and stress the importance of annual flu vaccinations to keep communities healthy
- \* Attend school meetings and events in your area to promote schools and other organization to host and participate in *Let's Fight Flu Together!* clinics
- \* Help schools and community organizations that signed up to host a clinic with community-wide promotion efforts to ensure high participation rates at *Let's Fight Flu Together!* clinics in your assigned area

### Experience and Qualifications

- \* Demonstrated teamwork skills are a must for this position
- \* Being a self-starter is crucial since you will be working from home
- \* Experience with and access to the Internet and Microsoft Office software
- \* Sales experience is not necessary! You will be an information source for schools and other organizations wishing to host on-site vaccination clinics.
